Removed and could make her very sick. It was a life threatening issue for her. Sadie has separation anxiety. I have lost my other dog Victor to kidney failure ^{after 13 1/2 yrs} and my Father passed away. She became depressed because she missed them. I live alone now with her only and I love her so much. I thank you so much for helping me to enable her to get the care she needed so badly that I could not afford. I live on a fixed income and ^{on} disability because I have clinical depression along with other multiple health problems. I have always had animals since childhood and when I adopt one it is a lifetime commitment for them that I will take care of them to the best of my ability for their lifetime. I feel so blessed and so thankful for your help and dedication to animals.

Sincerely,
